To search for names of people or business, type keywords into the search bar in your PDF reader. If a keyword search doesn't turn up expected results, it is recommended that you also scroll down into the alphabetical listings to search for the name, as the font-reading software is not perfect.

The table of contents below can also give you an idea of where to look within the document for other kinds of information listed in the directory, like street guides and government agencies. Note that the PDF page number and the original directory page numbers are different, because the color-printed advertisement pages in the directories were not numbered.

## P R E F A C E.

---

THE Brooklyn City Directory of 1863-64 makes its appearance enlarged by the addition of about thirty pages of matter, and the work of the book much improved over that of the last year.

The publishers have been very careful in the selection of good canvassers, and believe the result of their labors to be equal to that of any previous year.

Great difficulty has been encountered in certain localities of the city, where the population is composed almost entirely of the laboring classes, in obtaining the addresses of residents; and, in respect to such localities, a full canvass could not be made by reason of a positive refusal to give the necessary information.

The old names and numbers of the streets, which need correction, still remain, as the Common Council of the city had not completed their labors in those respects, but will undoubtedly accomplish the same this year, so that our next issue will embrace all those long needed reforms.

On account of the high prices of materials and labor, the publishers have been compelled to advance the price of the Directory about twenty-five per cent. The previous price of the Directory has been at one sum for nine years past, and the public will readily see that an increase of matter from year to year, together with the circumstances of the times, justify the publishers in the advance they have made.

The publishers feel assured that a fair price will always be readily and willingly paid, so long as a reliable and valuable Directory is furnished.

NEW YORK.

This cut represents a Heater to set in the fireplace, designed for heating the basement, parlor and second story. It occupies no more room than an ordinary grate. Its superiority over others is manifested by its flues being so constructed as to prevent choking. The air is received either from basement or cellar, and in passing through the various flues acquires a genial warmth, which is diffused throughout the rooms at pleasure.

# THE UNIVERSAL CLOTHES WRINGER WITH COG-WHEELS

From City Hospital,  
Raymond St. Brooklyn.

January 10, 1862.

We have thoroughly tested the "Universal Clothes Wringer" in this establishment. It is a complete success. I am satisfied that it can be used by common servants in families, does not easily get out of order, and saves very much of the wear and tear of clothes.

JOHN T. E. NICHOLS, Sup't.

## Opinion of the Proprietor of the Pierrepont House, Brooklyn.

I have had one of the Clothes Wringers some time, and find it answers the purpose it is intended for in all respects.

JAS. L. BURNS.

Brooklyn, N. Y., 1861.

It seems to be really an extraordinary and useful article, saving both clothes and labor.

Mrs. DR. R. H. HINMAN,  
128 Remsen St., Brooklyn.

The "Universal Clothes Wringer" gives full satisfaction in my laundry. I could not have believed it so practical and useful, had we not tested it ourselves. It saves time, labor and clothing.

I most cheerfully and heartily recommend it to housekeepers.

Mrs. E. R. TAYLOR,  
Montague St., cor. Clinton.

## Opinion of Mrs. Henry Ward Beecher.

I am most happy to speak in the very highest terms of the "Universal Clothes Wringer." I could hardly express my approbation of them more highly than I have by ordering one, in these hard times, for my daughter. I look upon it as among the most useful articles in her house.

## Opinion of Solon Robinson (one of the Editors of the New York Tribune).

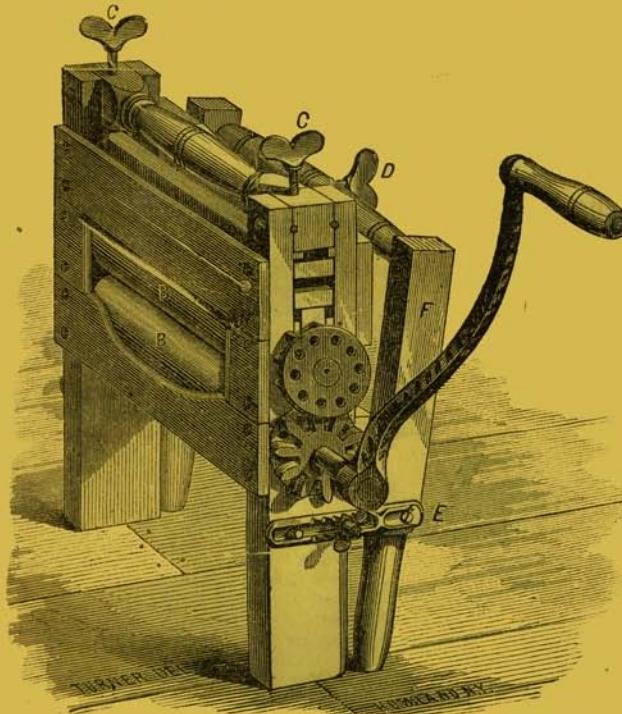

If I can say anything to induce families to buy the "Universal Clothes Wringer," I shall be glad of the opportunity. My family would as soon give up the cooking-stove as this Clothes Wringer. It cannot be too highly recommended.

We also refer to Pierrepont House, Brooklyn; Mansion House, Brooklyn; Brevoort House, New York; Fifth Avenue Hotel, New York; United States Hotel, New York; Gramercy Park House, New York; Earle's New Hotel, New York; Cortlandt-Street Hotel, New York; Hancock House, Boston; Marlboro' Hotel, Boston, [says: "It saves them ten dollars a month"] And many others.

MR. ORANGE JUDD, of the *American Agriculturist*, says of the  
**"UNIVERSAL CLOTHES WRINGER:"**

"From several years' experience with it in our own family, from the testimony of hundreds who have used it, and from the construction of the implement itself, we feel certain that it is worthy a place in every family where the washing is done at home. A child can readily wring out a tub full of clothes in a few minutes. It is in reality a **Clothes Saver!** a **Time Saver!** and a **Strength Saver!** The saving of garments will alone pay a large percentage on its cost. We think the machine much more than **Pays for Itself every Year** in the saving of garments. There are several kinds, nearly alike in general construction, but we consider it important that the Wringer be fitted with Cogs, otherwise a mass of garments may clog the rollers, and the rollers upon the crank-shaft slip and tear the clothes. Our own is one of the first made, and it is as **Good as New** after nearly **Four Years' Constant Use.**"

# STREET AND AVENUE DIRECTORY

OF THE

(CONSOLIDATED)

## CITY OF BROOKLYN,

Corrected and revised in accordance with the latest Corporation numbers up to May, 1863.

SHOWING the position, commencement, and termination of each Street, Avenue, Place, Lane, Court, Alley, etc., in the Consolidated City, with the junctions and crossings of the intersecting streets; also, the number of the building at the corner of each street, avenue, etc., when there is any.

When there is no house on the corner, or where the corner house fronts on the crossing street, the number nearest the corner is given, and a \* placed before it, to denote that that number is not to be looked for on the corner of the street or avenue named.

A — denotes that there is no number on the corner, or near the corner.

A † placed in the right or left column denotes that the street does not extend to that side of the one under whose heading it is found.

As a rule, the numbers will be found to commence westward and northward from the opening of the street or avenue, the even numbers occurring generally on the *right hand* side.

### EXPLANATIONS.

If you wish to find the location of any number—for instance, 115 Bridge Street—on consulting the Directory you will observe that 105 Bridge is on the left hand of that street and on the corner of Prospect, and 129 Bridge is on the left hand corner of Sands; hence, the desired location of 115 Bridge is between Prospect and Sands, on the left hand side.

The capitals E. D., when placed after a street, avenue, etc., denote that it is in the Eastern District. As there are several streets in Greenpoint, Bushwick, and Williamsburgh of the same name, and all being reckoned as the Eastern District, the exact location of such streets is given in connection with the capitals E. D.

*Note.*—As there are two Hudson Avenues in the Western District—one running from East River, between Gold Street and the Navy Yard, south to 208 Fulton Avenue, the other from Fulton Avenue, between Brooklyn Avenue and Albany Avenue, south to City Line (Flatbush)—the latter will be designated through the body of this work by *Italics*.

# SHEPARD'S SUPERIOR RANGES.

## CHARLES J. SHEPARD'S Desirable Cooking Ranges, EIGHT SIZES.

The extra large for **Hotels and Dining Saloons**, lesser sizes for **Boarding Houses**, and four sizes expressly for **Family Use**, consuming far less Fuel than any other Range, completing all cooking in the most desirable manner.

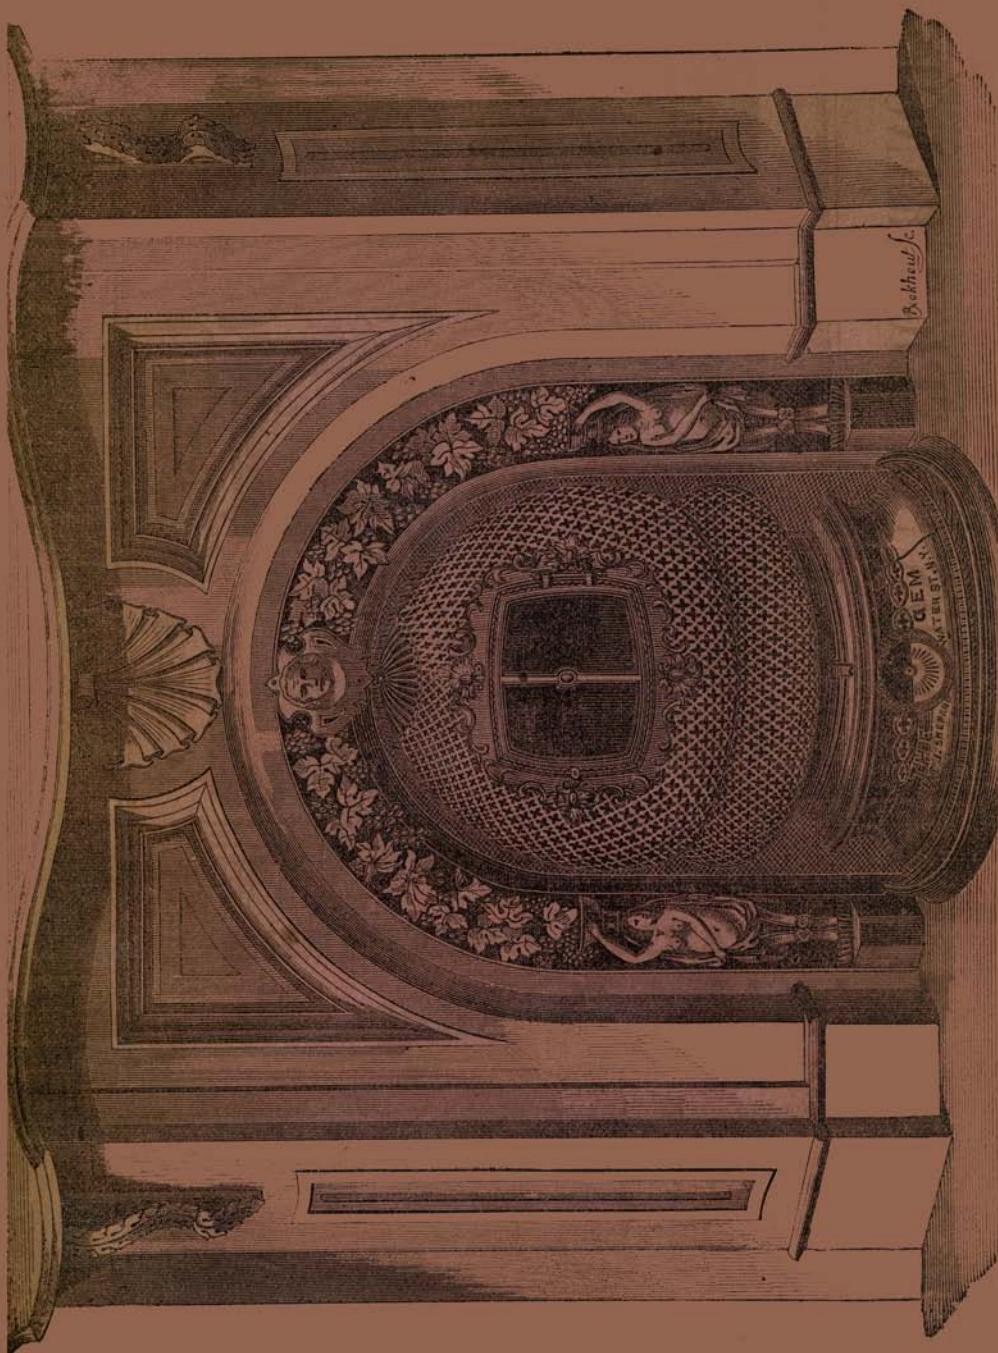

**Salesroom, 242 Water Street, N. Y.**

An examination of Shepard's Superior Ranges will satisfy all that nothing is offered to equal them in style, economy, efficiency or durability. Their economy is unquestionable. The cost of a Range will be amply repaid in the great saving of fuel. The superior Baking and other culinary operations, by their perfection alone, would also save much that is now wasted.

These Ranges are extra strong and durable, no weight of metal or expense has been spared to make them complete.

# CAPILLARY DISEASES.

DR. B. C. PERRY,  
THE CELEBRATED DERMATOLOGIST,  
RECENTLY FROM No. 29 WINTER STREET, BOSTON,

And the only man in this country who has ever made the treatment of  
DISEASED SCALPS,

LOSS OF HAIR, and

BLANCHING,

a specialty, has established himself at

**No. 49 BOND ST., NEW YORK,**

where he can be consulted by all who are afflicted with any disease of the scalp, loss of hair, or premature blanching.

Dr. PERRY is prepared to treat successfully the following diseases, all of which are productive of a loss of hair:

Debilitation of the External Skin, Suppressed Secretion, Irritation of the Scalp, Dandruff or Thickened Secretion, Inflammation of the Sensitive Skin, Mattered Secretion, Hair-Eaters, Distended or Swollen Roots, and Premature Blanching.

This is the only method based upon Physiological principles which has ever been presented to the public for the restoration of the Hair.

Particular attention is called to the Doctor's theory of treating

**Diseased Scalps and restoring Hair.**

It will no doubt commend itself to every intelligent and reflecting mind.

There are eighteen Diseases of the Head and Scalp that cause a loss of hair, and in some instances premature blanching, each requiring in its treatment different remedies. Where loss of hair has resulted from any of those diseases, the first thing to be done is to remove the disease by a proper course of treatment; restore the scalp to its normal condition; keep the pores open, so that the secretion can pass off, and in every follicle that is open new strands of hair will make their appearance.

The philosophy of premature blanching is this: Iron and Oxygen are the principal constituents of dark hair; Lime and Magnesia of light hair. When the suppressed secretions between the skins contain an excess of lime it is taken up by the strands, causing the hair to turn white; by opening the pores the accumulation of lime passes off with the secretions, the natural components of the hair resume their ascendancy, and the hair resumes its natural color.

Because persons have tried various preparations for the hair, and have been deceived by them, and in some cases their difficulty made worse by their use, they need not be discouraged. The one-preparation system for any class of diseases must necessarily prove a failure. No one compound can be available for a dozen or more diseases; it may remove some difficulties, in other cases useless, and in some positively injurious.

Dr. PERRY's method is in accordance with the law of cause and effect. He makes a personal examination, ascertains what disease of the scalp has or is producing a loss of hair or premature whitening, prescribes such remedies, according to its nature and requirements, as will remove the disease; hence his great success in treating

## CAPILLARY DISEASES.

As to Dr. PERRY's ability and success in treating Diseases of the Scalp, Loss of Hair, and Premature Blanching, he has in his possession the most reliable testimonials from Physicians, Clergymen, and others, in every city where he has practiced. They can be seen by calling at his office, No. 49 Bond Street.
